

ENTERING 12th GRADE REGISTRATION INFORMATION

Students are encouraged to visit with current teachers, Mr. Richards, or Mr. Jacobsen regarding any questions they may have about courses, progress toward graduation, and programs of study.

Credits are awarded on the basis of 5 credits per course per semester; thus a typical course taken for a full year will earn a student 10 credits toward graduation. Students must receive a passing grade in a course in order to earn any credit for that course.

Graduation Requirements for AGHS students may be found listed on the accompanying Pre-Registration form. Please note that figures given for meeting graduation requirements are minimums only. Students planning on attending most four year colleges and universities will want to exceed AGHS requirements in order to assure admission. See the online High School Registration Instructions link on the Ashland-Greenwood home page for more information on college and university requirements.

Ashland-Greenwood High School requires all students to register for at least seven classes, leaving no more than one study hall. The table below summarizes registration needs for 12th graders.

REQUIRED	RECOMMENDED	ELECTIVES
An English class Economics/Civics <u>Coursework needed to meet AGHS graduation requirements (review transcripts with the counselor).</u>	Additional math, science, social studies, English, or foreign language coursework needed to meet college admission requirements.	Classes of personal or career interest to the student sufficient to fill the student's schedule. May include only one study hall and one TA request. School to Work requires 90 work hours for 5 hours of elective credit. There is a 15 credit CAP per semester limit.

Possible course offerings for 2011-2012 available for 12th graders are listed by subject area on an accompanying form. Detailed information about each course, including prerequisites, may be found in the Course Catalog that was emailed to all students. Some courses listed may not be part of the schedule of offerings next year should student interest not warrant such an offering or as a result of personnel/scheduling considerations.

2011-2012 COURSE OFFERINGS AVAILABLE FOR ENTERING 12TH GRADERS

Courses available for students in the grade level listed are marked with an asterisk and will correspond to those courses listed on PowerSchool for online registration. Please refer to the Course Catalog for more information on individual courses and the registration process.
