3. To further facilitate the development of such learners, Ashland-Greenwood Middle School will implement instructional and management strategies to ensure that all students meet minimum performance standards in all classes.

C. Disclaimer

1. This handbook, although substantial in its content, is not inclusive of all the policies, procedures and programs of the school district. 3. Additionally, any transfer student who is transferring in from another state must provide the school with a completed physical examination form prior to attending classes.

E. Part-Time Enrollment

1. Students enrolled at Ashland-Greenwood Middle School will maintain that enrollment on a full-time basis unless arrangements for part-time status have been agreed upon by both the school and the family.
2. Medical requirements, dual enrollment status at another educational institution, participation in work experience programs, family needs and beliefs, individualized education plan provisions, and a student's status relative to timely completion of all graduation requirements may be considered when creating a part-time enrollment arrangement.
3. In no instance, will a student's part-time enrollment be allowed if doing so violates Nebraska law regarding compulsory attendance.

*175 days of school will be held for students. If no days are lost to inclement weather or other causes, the last day of school for students will be May 21. One day of school will be added to the calendar for each day lost due to inclement weather or other causes with one staff workday concluding the year.

H. School Closings

1. In the event of postponement of school due to inclement weather or other factors, school closing information will be provided to local radio and television outlets. A listing of those will be provided students and parents.

I. Lost and Found

1. All lost and found items should be reported to the principal's office. The school will assist students, to the extent possible, in recovering lost property. Lost or left items that are unclaimed at the end of the school year will be disposed of one week after the last student day.
2. The school assumes no responsibility for the loss of personal property.

J. Media Center

1. Books may be checked out or renewed for two week periods. Reserved items must be used in the media center itself; such items may be checked out overnight after 3:21. Students are responsible for paying for lost or damaged materials.
2. Use of media center workstations will be for school-related purposes only.
3. Media center use privileges will be denied to all students who have failed to return overdue materials, whose conduct while in the library interferes with the study of others, or who do not have a pass to the media center.

K. Lunch

1. The school will provide hot lunches for students to purchase from a set menu; some ala carte items will also be offered. Students may also bring their lunches. All lunches will be eaten in the designated dining area; students will remain in designated areas throughout the lunch period.

L. Transportation

1. The school furnishes transportation to resident students enrolled in the Ashland-Greenwood Public Schools who reside outside the city limits of Ashland and to those students for whom transportation is required by law. Transportation is provided to and from the student's registered place of residence unless otherwise approved by the Superintendent. Resident students who live outside the city limits but within four miles of the schoolhouse will be transported on a space available basis. The location of the residence of a student's day care provider cannot be used to determine eligibility for the student for district transportation.
2. Transportation to and from school is provided as a service to district residents and eligible students shall always have first priority for bus service. The school does not provide transportation to non-resident students except for families who filed option enrollment requests with the school prior to July 1, 1994.
3. A student's home is the pick up and drop off point for transportation unless a parent designates a different point and that point is on a current school bus route and does not cause the district to alter existing bus routes or to overload a bus.
4. In order to request bus service, a family should contact the Superintendent's Office.
5. Pupils attending school events requiring transportation must ride on school buses unless other arrangements have been approved in advance by the principal. Requests for such alternative arrangements must come from the parents and must be in writing.
6. School buses will return to Ashland immediately after all events unless other arrangements have been approved by the principal and sponsors in advance.

M. Bicycles, Cars, and Other Vehicles

1. Students riding bicycles or driving cars or other vehicles to school are to park those bicycles or vehicles immediately upon arrival at school. Vehicles will remain parked throughout the school day and should be locked, if possible.
2. Bicycles should be placed in the bike racks provided by the middle school entrance.
3. Cars and other vehicles should be parked in either the east or the west parking lots; where indicated, parking lines are to be followed.
4. Parking slots in the south driveway are for visitors only.

N. Closed Campus

1. Ashland-Greenwood Middle School operates on a closed campus basis. During the school day (including the lunch period), students are prohibited from leaving the school grounds unless permission to do so has been granted by the principal or his/her designee. In turn, that approval will be granted only after parental contact has been made.
2. Closed campus shall be interpreted to ban students from being in the parking lot during the school day (including the lunch period).
3. Students who have a medically prescribed diet that must be administered/monitored at home may be excused over the lunch period for that purpose if a note from an appropriate physician is provided verifying the relevant medical condition.

O. Telephones, Pagers, and Cellular Phones

1. Student use of school telephones will be limited to cases of extreme importance (i.e. contacting parents); students will be required to use the pay telephone for other calls.
2. In order to minimize disruption to the school routine, students will be called to the telephone only for calls from parents or close relatives. Messages will be taken and delivered for all other calls.
3. Personal pagers, cellular phones, or other communications devices carried by students will need to be turned off during the school day. Confiscation of the item for safekeeping will occur should the item create a disturbance in the school routine.

P. Custodial - Non-Custodial Parent Information

1. Unless provided legal documentary evidence to the contrary, the school will assume that parents have joint custody. For purposes of notifying parents about students, the district shall assume that notifying either parent with custodial rights shall be the same as providing notice to both parents unless either parent makes a written request to the contrary. The custodial parent, not the non-custodial parent, has the right to make educational decisions for affected children unless extraordinary and highly unusual circumstances present themselves or a court order grants such rights in full or in part to the non-custodial parent. If joint custody has been awarded, each parent will have equal rights unless restricted by a court order or other legal document.
2. Unless a court order or other legal document prohibits the following actions and the school has been provided with a copy of the order/document, the non-custodial parent may:
 - a. review his/her child's educational records
 - b. attend regular parent-teacher conferences and may arrange for additional conferences
 - c. visit the school as custodial parents do unless such visits are judged by schools officials as disruptive to the school routine
 - d. request general school information such as district newsletters and lunch menus
3. The school will not release a child to a non-custodial parent or other individual prior to the end of the school day unless the custodial parent has granted permission. If custody has not been decided, a child may be released to either parent unless a court order or other legal document prohibits such release. The district may require an individual to show identification when picking up a child if the individual is unfamiliar to the staff.
4. The school will use the legal surname of each child on all official school records. Use of another surname on official school records will require a court order or other legal document evidencing a legal name change.
5. Custodial and non-custodial parents are responsible for providing the school with copies of all relevant court orders and legal documents. The school will not go beyond what is called for by a court order or other legal document.
6. Disagreements between family members are not the responsibility of the school district. The school district will not take the "side" of one family member over another in a disagreement about custody or parental rights. This policy does not prohibit an employee from listening to a student's problems and concerns.

Q. Gifts to School Personnel

1. Students and parents are discouraged from giving gifts to school personnel.

R. School Visitors

1. Parents are always welcome and encouraged to visit Ashland-Greenwood Middle School. All other visitors must be approved in advance by the principal.
2. All visitors must register in the office upon entering the building and will be issued visitors' identification tags.

II. Instructional Program

A. Minimum Performance Standards and Student Success

1. All students are expected to meet minimum performance standards in all classes.
2. Students who fail to meet those minimum standards on an initial effort will be provided opportunities to repeat the effort in a timely manner until minimum standards are met, with such work being done under the supervision of the affected teacher.
3. Such remediation work may take the form of re-doing an assignment or test in its entirety, correcting errors from an original assignment, or such other learning activities as are deemed appropriate by instructional staff.
4. Remediation efforts must be completed within one week of the original effort's return to the student.
5. Following successful completion of the assigned remediation work within the time frame allowed, students will be considered to have earned the minimum passing mark for the affected assignment or test.

B. Grading Procedures

1. Grades are listed on report cards and transcripts in letter format. The most restrictive percentage range which may be used for each letter grade is listed below:

<u>Grade</u>	<u>Percentage</u>
A-A+	100-94
B-B+	93-86
C-C+	85-78
D-D+	77-70
F	Below 70

2. Teachers will provide students with class-specific listings of percentage ranges at the start of each school year.

3. Grades will represent student achievement and may be based on any or all of the following: tests, quizzes, projects, daily assignments, class participation.

C. Cheating

1. Any student found to be cheating will automatically receive a zero on the affected work or test but will be required to complete the assignment/test in question at a level meeting minimum performance standards.

D. Make-Up Work

1. Students who are absent and excused for that absence will have the number of days missed plus one in which to complete make-up work (i.e. a student absent one day will have two days to complete such work, a student absent two days will have three days to complete such work, etc.).

E. Make-Up Work in Cases of Exclusion, Suspension, Expulsion, or Mandatory Reassignment

1. Students excluded from school under communicable disease provisions of this handbook will be allowed to make-up all work in accord with regular make-up work provisions.
2. Students suspended from school will not be counted absent for the days suspended and will be allowed to complete all make-up work as part of their assignment to the evening school program. Students not attending assigned evening school program sessions will be counted absent for the days in question and will receive no credit for affected make-up work.
3. Students expelled from school shall be dis-enrolled for the expulsion period. Non-enrolled students may not earn grades or credits for any work completed in the regular education program prior to expulsion but are eligible for such under alternative education program options which will be made available to the expelled students.
4. Transfer grades and credits for students mandatorily reassigned or returning from mandatory reassignment will be handled in the same fashion as all other transfers.

F. Loan of Materials to Home School Students

1. Textbooks and other nonconsumable school supplies may be loaned to home school students at the discretion of the administration.
2. Home school students borrowing said items are responsible for any damage or loss occurring to school property.
3. The school will not purchase additional items nor deprive itself of an adequate reserve in order to accommodate requests from home school students.

G. Attendance

1. Attendance Philosophy
 - a. The Ashland-Greenwood School District complies with attendance provisions found in state law.
 - b. Regular attendance at school is the responsibility of the student and the parent. Students are expected to attend classes on a regular basis and be on time to gain maximum benefit from their instructional program and to develop habits of punctuality, self-discipline, and responsibility. Parents of school age children are required by law to see that those children attend school regularly.
 - c. Daily attendance is important for the following reasons: daily discussions contribute a significant amount of the background essential to any course which cannot be made up if missed and a regular attendance pattern will develop a degree of responsibility on the part of the student that will continue throughout life.
 - d. Thus regular attendance promotes both academic development and growth as a dependable individual.
2. Parental Verification
 - a. Parents are asked to call in their son or daughter's absence to the school office before 10:00 a.m. on each day of absence. An answering machine will take calls from parents whose employment requires them to leave town before school begins. Collect calls are accepted. The school will attempt to contact parents if no call is received and a child is absent. Should no such contact be established on the day of absence, the student must bring a parental note upon his or her return to school. Parent calls or notes must include a reason for the absence if the absence is to be considered excused.
 - b. For verification purposes, the school cannot accept a student call or excuse regarding absence. Any absence not verified by a parent will be considered unexcused.
 - c. A student shall be considered excused for absences caused or necessitated by illness, bereavement, family emergency, or other reasons requested by the parent or guardian and approved by the principal. Absences of three consecutive days or more for illness will require verification that medical treatment was sought and/or obtained. Excused absences will be further classified by the school as unavoidable (i.e. illness, funerals court appointments, etc.) or avoidable (i.e. vacations or family trips, attending district or state competitions other than as a participant, or other absences which are by choice rather than necessity).
 - d. Any absence not verified by a parent, including those for which a parent fails to provide a reason, within two days of the absence will be considered unexcused and subject to disciplinary action. Additionally, students incurring unexcused absences will be required to make up all work missed in accord with minimum performance standards procedures.
3. Truancy
 - a. Any child age 7 to 16 who fails to attend school regularly without lawful reason shall be considered to be in violation of Nebraska truancy statutes and will be subject to efforts by the school to compel attendance.
 - b. Students ages 7 to 16 who accumulate more than five absences, excused or unexcused, in any quarter shall be considered to have excessive absences. Notice of excessive absenteeism shall be made to the parents/guardians after the sixth absence. Additional corrective action taken by the school may include, but is not limited to: conferences, counseling, evaluation, alternative placement, suspension, and expulsion.
 - c. If a student age 7 to 16 continues to be habitually truant, written notice to the parents/guardians shall be provided warning them to comply with state law.
 - d. If such compliance does not occur within one week of notice being provided, the principal shall file a report with the county attorney of the county in which the student resides.
4. Return to School after an Absence
 - a. Students returning to school after an absence for which parental verification has not been received must obtain a class admit slip prior to being admitted to any class. No make-up assignments will be given unless a classroom teacher is first presented with a properly completed admit slip. Admit slips will classify all absences as excused or unexcused in nature. Such classification will determine teacher response to requests for make-up work.

5. Notification of Attendance Status
 - a. An attendance summary will be provided to parents when a student has reached six and ten absences in one or more classes for any semester.
6. Attendance and School Activities
 - a. Students acting as participants on an extra-curricular team or organization under the direction of a school appointed coach/sponsor will not be considered absent when such participation requires them to miss part or all of a school day. Participants will be required to complete, in advance when possible, all assignments.
7. Tardiness
 - a. Tardiness to school or to any class during the school day or extension thereof will be considered excused if a legitimate reason exists for the tardiness and the affected student has a hall pass stating that reason; all other tardies will be considered unexcused. Tardiness is defined as not being in an assigned room when the starting bell for any given class period rings.
 - b. Individual teachers will keep tardy records for each student and will implement procedures for dealing with excessive tardiness as part of their classroom management rules.
 - c. Students arriving more than 20 minutes late to any class will be considered to have been absent from that class rather than merely tardy.
8. Attendance Requirements for Extra-Curricular Participation
 - a. Students wishing to participate in extra-curricular practices or contests must be in attendance all day of the school day in question. This requirement can be waived by the principal if an absence is for an unavoidable, non-illness related reason.

H. Student Fees and Supplies

The following are student and parent expectations regarding the provision of materials, equipment, attire, fees, services and other items under the Public Elementary and Secondary Student Fee Authorization Act.

1. Guidelines for Clothing Required for Specified Courses and Activities
 - a. Students have the responsibility to furnish and wear nonspecialized attire meeting the grooming and attire guidelines established for the building or programs attended by the students and in accordance with district policy. Students also have the responsibility to furnish and wear nonspecialized attire reasonably related to the programs, courses and activities in which the students participate where the required attire is specified in writing by the administrator or teacher responsible for the program, course or activity.
 - b. The school will provide or make available safety equipment and attire as may be required by law, specifically including appropriate industrial-quality eye protective devices for courses of instruction in vocational, technical, industrial arts, chemical or chemical-physical classes which involve exposure to hot molten metals or other molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other similar hazards.
2. Personal or Consumable Items
 - a. Students have the responsibility to furnish any personal or consumable items for participation in extracurricular activities. Items necessary for students to benefit from courses will be made available by the school for the use of students during the school day. Students are encouraged, but not required, to provide items including, but not limited to, pencils, pens, erasers, and notebooks. A student supply list is available at the end of this section.
 - b. Equipment or supplies of a specialized nature for certain courses (for example, protractors and math calculators) may be available to students by the school, but students may also be encouraged to purchase their own such equipment or supplies for their own use after school hours or for use during the school day due to the limited number of District items available to the students.
 - c. While the school will provide students with the use of facilities, equipment, materials and supplies, including books, the students are responsible for the careful and appropriate use of such property. Students and their parents or guardians will be held responsible for damages to school property caused or aided by the student and will also be held responsible for the reasonable replacement cost of school property which is placed in the care of and lost by the student.
3. Materials Required for Course Projects
 - a. Students have the responsibility to furnish or pay the reasonable cost of any materials required for course projects where, upon completion, the project becomes the property of the student. Such materials are subject to the District's fee waiver policy.
 - b. Students must furnish musical instruments for participation in optional music courses that are not extracurricular activities. Use of a musical instrument without charge is available under the District's fee waiver policy; however, the school is not required to provide for the use of a particular type of musical instrument for any student.
4. Extracurricular Activities Specialized Equipment or Attire
 - a. Extracurricular activities means student activities or organizations which are supervised or administered by the school, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the District.
 - b. The school will generally furnish students with specialized equipment and attire for participation in extracurricular activities. The school is not required to provide for the use of any particular type of equipment or attire. Students may furnish their own specialized equipment and/or attire rather than that which is provided by the district provided that equipment and/or attire meets standards established by the district and has the approval of the coach, leader, conductor or sponsor.
 - c. Students have the responsibility to furnish personal or consumable equipment or attire for participation in extra curricular activities or for paying a reasonable usage cost for such equipment or attire. For music courses that are extracurricular activities, students may be required to provide specialized equipment, such as musical instruments, or specialized attire, or for paying a reasonable usage cost for such equipment or attire.
5. Extracurricular Activities-Fees for Participation
 - a. The District charges a fee of \$20 for participation in extra-curricular activities except those activities which are a required part of a curricular class that leads to earning credit towards graduation or grade promotion. Fees collected for participation in extra-curricular activities shall be used to support various extra-curricular activities.

- b. Students who pay the fee will be admitted free to all school sponsored activities held at the school including athletic events, musical and play events and dances. Students who do not pay the fee will be charged a fee for admission to school activities and will not be permitted to participate in extra-curricular activities. The fee is subject to the District's fee waiver policy.
6. Postsecondary Education Costs
 - a. Students are responsible for postsecondary education costs. The phrase "postsecondary education costs" means tuition and other fees associated with obtaining credit from a postsecondary educational institution. For a course in which students receive both middle school and postsecondary education credit or a course being taken as part of an approved accelerated or differentiated curriculum program, the course shall be offered without charge for tuition, transportation, books, or other fees, except tuition and other fees associated with obtaining credits from a postsecondary educational institution.
 7. Transportation Costs
 - a. The district shall collect fees for transportation to and from school as permitted by law. The district shall not collect fees for travel to and from school extra-curricular activities or the travel portion of school sponsored trips including those which are considered to over night or long-distance travel under policy 6153.1. Overnight and long distance travel may take place if it meets the criteria of district policies for such travel and provided that the expenses for such travel are borne by the district either through tax supported funds or through student activity funds.
 - b. All group travel shall include the entire group or a select portion of the group with a selection process that is not discriminatory based on the district's discrimination policy. The ability of a student to pay shall not be a criteria for participation in school sponsored travel.
 - c. Nothing precludes an individual or staff member to travel on his or her own without school sponsorship. Nothing precludes staff from traveling with or without students at their own expense and without being compensated to travel by the district.
 8. Copies of Student Files or Records
 - a. Students may receive a copy of their student records or have their records mailed to another educational institution without charge. A charge of 5 cents a page will be assessed for student records. This fee schedule shall permit one copy of the requested records be provided for or on behalf of the student without charge and shall allow duplicate copies to be provided without charge to the extent required by federal or state laws or regulations. The district shall also provide duplicates of records for other school districts or post-secondary institutions a student plans to attend at no charge.
 9. Participation in Summer School or Night School
 - a. Students are responsible for fees required for participation in summer school or night school. Students are also responsible for correspondence courses.
 10. Breakfast and Lunch Programs
 - a. Students shall be responsible for items which students purchase from the District's breakfast and lunch programs. The cost of items to be sold to students shall be consistent with applicable federal and state laws and regulations.
 - b. Students are also responsible for the cost of food, beverages, and personal or consumable items which the students purchase from the District or at school, whether from a "school store," a vending machine, a booster club or parent group sale, a book order club, or the like.
 11. Waiver Policy
 - a. The school provides fee waivers in accordance with the Public Elementary and Secondary Student Fee Authorization Act. Students who qualify for free or reduced-price lunches under the United States Department of Agriculture child nutrition programs shall be provided a fee waiver or be provided the necessary materials or equipment without charge for: (1) participation in extracurricular activities and (2) use of a musical instrument in optional music courses that are not extracurricular activities.
 - b. Participation in a free-lunch program or reduced-price lunch program is not required to qualify for free or reduced-price lunches for purposes of this section. Application can be made as a part of applying for free and reduced price lunches.
 12. Uniforms
 - a. The school will generally furnish students with specialized equipment except as stipulated within Policy 5500 and attire for participation in extracurricular activities. The District is not required to provide for the use of any particular type of equipment or attire.
 - b. The district shall provide all uniforms that are not fitted to a particular student and the equipment required by the district to be a part of a club, team, organization or squad except for that specified in policy 5500. The district shall not collect funds from free and reduced price lunch students for such uniforms or equipment. Such funds may come from tax supported funds or from student activity funds.
 - c. Uniforms that are specially fitted to a particular student and that cannot be reused for others shall become the property of that student. Funds for these types of uniforms shall be paid for by the student or through fundraising by the group or organization. The school shall pay for any specially fitted uniform for a free and reduced lunch student but reserves the right to retain ownership of the uniform upon completion of the activity.
 - d. The school administration shall approve any uniform prior to final selection in order to consider its appropriateness to school dress codes and its cost to students and the district. Without this approval it does not become the official wear of the district.
 - e. Nothing shall preclude groups or individuals from making donations to a particular club, team or squad provided the donation meets the district criteria for the acceptance of a donation and provided the donation is being made to the benefit of the entire club, team, organization or squad. Nothing precludes a student, with permission from the coach or sponsor, to purchase and provide his or her own equipment and/or specialized attire.
 - f. Students have the responsibility to furnish personal or consumable equipment or attire for participation in extracurricular activities. For music courses that are extracurricular activities, students may be required to provide specialized equipment, such as musical instruments, or specialized attire, or for paying a reasonable usage cost for such equipment or attire.

J. Promotion/Retention

1. Judgments about promotion from grade to grade or retention of a student at a grade are the prerogative of the professional employees of the district. It is the intent of the Board that decisions about promotion and retention should be based on pupil progress, including completion of the prescribed curriculum. In all decisions about promotion or retention, the welfare and development of the pupil shall be the paramount concern of professional employees.
2. Students who fail 3 or more classes or who miss 10 days in any one semester will be reviewed by an interdisciplinary team designated by the building principal. This team will be made up of the principal, a counselor, and at least one classroom teacher. That team will make a recommendation as to whether the child should be promoted or retained.
3. Parents will be involved in any decisions that are made regarding promotion or retention, and they will have the right to a review of decisions made about promotion or retention of the pupil in accordance with Board policy.

K. Reporting of Academic Progress

1. Report cards detailing grades earned will be issued every nine weeks.
2. All teachers will provide notice to parents of students who are not participating in remedial work necessary to meet minimum performance standards. Said notice may be in written form or may be via information available online through PowerSchool. Based on that contact, a plan of action will be developed by parents and teachers.
3. Parents and students are encouraged to contact classroom teachers regarding academic progress as those concerns arise.

L. REACH Program

1. The REACH Program provides a framework for identifying and meeting the needs of high ability students. The identification process begins with a student nomination. Nominations for the program may be made by the student, peers, teachers, or parents. Data is collected for nominated students and submitted to the REACH Committee. The Committee determines whether or not a student qualifies for inclusion in the program.
2. Students who qualify for the REACH program are provided opportunities for a differentiated curriculum within the classroom setting and expanded learning opportunities outside the classroom.

M. Honor Roll

1. Ashland-Greenwood Middle School Honor Rolls recognize academic achievement and are published at the end of each grading period. Any student with a core subject (English, literature, math, science, and social studies) GPA of 3.00-3.50 (A=4.0; B=3.0; C=2.0; D=1.0; F=0.0) for the current grading period will be included on the Second Honors honor roll. Any student with a core subject GPA of 3.51-4.00 will be included on the First Honors honor roll.

N. Required Classes/Class Load

1. All students must carry a minimum load of seven classes; this means that students may register for no more than one study hall.

O. Study Hall

1. Students are allowed study halls on the assumption that such time is necessary in order to complete required work.

1. To that end, students are expected to bring materials and books to study hall and to engage in quiet study. Card or other game playing in study hall is prohibited.

P. Special Education Programs

1. Special education programs and services operated in compliance with state and federal requirements are provided by the Ashland-Greenwood Public Schools. Parents or students wishing to know more about those programs and services should contact a building principal.

III. Expectations, Rights, and Responsibilities of Students

A. General Standards and Philosophy on Student Conduct

1. An effective learning climate can exist only when all involved in the school setting—parents, students, and staff—act as responsible individuals. For students, this means demonstrating ongoing respect for the rights and property of other students, school employees, and the school building itself. ***Students must understand that all school employees have the authority and duty to supervise and discipline at all times during the school day or at school activities.***

2. Rules governing student conduct set forth in this handbook, and any sanctions arising from violation of those rules, are applicable to student behavior occurring on school grounds at any time, when participating in or attending school activities and events, or riding in school vehicles.

3. Any conduct which causes or which creates a reasonable likelihood that it will cause a material disruption in or material interference with any school function, activity or purposes or that interferes with the health, safety, well-being, or rights of others represents a failure by the acting student to live up to his/her responsibilities and cannot be justified as an exercise of student rights or privileges. Accordingly, the school will be forced in such situations to take appropriate action.

4. The purpose of discipline in the school will always be the correction of unacceptable behavior, the encouragement of wise decision-making by students, and the preservation of the learning environment.

B. Student Responsibilities

1. In meeting the general standards discussed above, students will need to exercise the following responsibilities:

- a. to apply themselves to the best of their abilities to the learning tasks assigned
- b. to attend school regularly and punctually
- c. to act in a manner which will enhance the learning environment for all
- d. to use school facilities in a way which will conserve their continued usefulness
- e. to abide by school regulations and to assist in their enforcement and development

- c. to express himself or herself or to attempt to influence others so long as the rights of others are not violated
- d. to have access to printed copies of school regulations
- e. to exercise individual constitutional rights
- f. to exercise due process rights

D. Student Grievance Procedure

1. Students are entitled to appeal disciplinary and other decisions made by school agents.

2. The first step in the appeal process is to seek relief from the school agent originally making the decision being appealed.

3. If no satisfaction is obtained at the initial level, appeals may be directed toward successive levels of authority, including courts and civil authorities.

E. Jurisdictional Statement

1. Policies regarding student behavior are in effect: while students are on school grounds, school district property, or on property within the jurisdiction of the school district; while on school-owned and/or school-operated transportation; while attending or engaged in school activities; and while away from school grounds if the misconduct directly affects the good order, efficient management, and welfare of the school district.

 3. Some offenses, because they are seriously disruptive to the learning environment or because they directly threaten the health, safety, well being, and/or educational rights of others, will result in non-discretionary disciplinary action.  - n. repeated violation of any of the rules adopted by the school district or the school
 - o. engaging in any unlawful activity as determined by the United States or the State of Nebraska
14. In addition, a student may be suspended (short term or long term), expelled, or mandatorily reassigned for sexual assault or attempted sexual assault of any person regardless of the time or location of the offense if a complaint alleging such conduct is filed in a court of competent jurisdiction.
15. In addition, a student who, on school grounds or at a school activity off school grounds engages in the knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student unless caused by accident or for necessary self-defense or the defense of others, or the knowing and intentional possession, use, or transmission of a firearm or other dangerous weapon shall be expelled for the remainder of the school year if the expulsion occurs during the first semester and, if the expulsion occurs during the second semester, the expulsion shall remain in effect for the first semester of the following school year. Such action may be modified or terminated by the school at any time during the expulsion period.
16. The following procedures will apply to short term suspension:
 - a. the principal shall make a reasonable investigation of the facts and circumstances
 - b. prior to commencement of the short term suspension, the student shall be advised (in oral or written form) of what the student is accused of having done and the basis of the accusation
 - c. prior to commencement of the short term suspension, the student will be provided an opportunity to present his or her version of events
 - d. within 24 hours or such additional time as is reasonably necessary following the suspension, the principal shall send a written statement to the student and his parents or legal guardians describing the conduct, misconduct, or violation of school rules or standards and identifying the reasons for the action taken
 - e. the student will have an opportunity to have a conference with the principal before or at the time the student returns to school
17. The following procedures shall apply in cases long term suspension, expulsion, or mandatory reassignment:
 - a. The principal shall prepare for and submit to the superintendent of schools a written summary of the alleged violation(s) and the evidence supporting the alleged violation(s)
 - b. Upon submission of a recommendation for long term suspension, expulsion, or mandatory reassignment, the principal shall determine whether the affected student must be suspended immediately to prevent or substantially reduce the risk of interference with the school purpose or personal injury to the affected student, other students, school employees, or school volunteers. If such risk is determined to exist, the affected student may be suspended by the principal until the date the long term suspension, expulsion, or mandatory reassignment takes effect if no hearing is requested or until the date the superintendent acts upon the hearing officer's recommendation if a hearing is requested.
 - c. If the superintendent deems further action appropriate, he or she shall either serve by registered or certified mail or by personal service the student and his/her parents or legal guardians with a written notice within two school days of the date of the decision. That notice will include the following:
 1. the rules or standards of conduct allegedly violated, the acts of the student alleged to constitute a cause for long term suspension, expulsion, or mandatory reassignment, and a summary of the evidence to be presented against the student as submitted by the principal
 2. the penalties recommended by the principal and other penalties to which the student may be subject
 3. an explanation of the student's right to a hearing upon request on the specified charges

4. a description of the hearing procedures along with procedures for appealing any decision rendered at the hearing
 5. a statement that the principal, the student, and the student's parents or legal guardians shall have the right to (i) examine the student's academic and disciplinary records and any affidavits to be used at the hearing concerning the alleged misconduct, and (ii) know the identity of any witnesses to appear at the hearing and the substance of their testimony
 6. a form on which the student may request a hearing to be signed by the parties making the request and delivered to the principal or superintendent in person or by registered or certified mail
- d. The student and his/her parents or legal guardians may discuss and settle the issue under consideration with appropriate school personnel prior to the hearing stage.
 - e. If the principal or superintendent has not received a request for hearing within five school days following receipt of the written notice, the punishment recommended by the principal shall automatically go into effect.
 - f. If a hearing is requested more than five school days but not more than thirty calendar days following receipt of the written notice, the student shall be entitled to a hearing but the punishment imposed will continue in effect pending final determination.
 - g. If a request for hearing is not received within thirty calendar days following receipt of the written notice, the student shall not be entitled to a hearing.
 - h. If a hearing is required to be provided, the superintendent shall appoint a hearing officer.
 - i. The following are procedural guidelines for hearings:
 1. *Hearing Officer*: The hearing officer shall be an individual who has had no involvement in the charges, will not be a witness at the hearing, has not brought charges against the student, will remain impartial throughout all deliberations, and will be available to answer questions by any involved party regarding the nature and conduct of the hearing.
 2. *Administrative Representative*: The principal shall present the facts and evidence making up the school's case; he or she may be represented by an attorney, but any such attorney shall not advise the hearing officer or parties who may review the proceedings as their counsel.
 3. *Notice of Hearing*: Within two days of being appointed, the hearing officer shall give written notice to the principal and the student or the student's parents or legal guardians of the time and place for the hearing. The hearing shall be scheduled within a period of five school days after it is requested unless the hearing officer has good cause to exceed that five day period. No hearing shall be held with less than two day's notice unless all parties involved consent to such scheduling.
 4. *Continuance*: The hearing officer may continue the hearing for any good cause, including, at his or her discretion, a written request for continuance from the student.
 5. *Access to Records*: The principal, the student, the student's parents or legal guardians, and the student's legal counsel (if any) shall have the right to examine records, affidavits, and statements of any witnesses in the possession of the school at any reasonable time prior to the hearing.
 6. *Mechanics of the Hearing*: The hearing shall be attended by the hearing officer, the student, the student's parents or legal guardians, the student's legal counsel, and the principal. Witnesses shall be present only when they are giving information at the hearing or with the consent of both parties. The student may be excluded at the discretion of the hearing officer at times when the student's psychological evaluation or emotional problems are being discussed. The student or the student's parents or legal guardians may be represented by legal counsel. The hearing examiner may exclude anyone from the hearing when his/her actions substantially disrupt an orderly hearing. The formal rules of evidence shall not apply at the hearing. Testimony in affidavit form and other documentary evidence may be presented by the principal only if such has been made available to the student, the student's parents or legal guardians prior to the hearing. The student, the student's parents or legal guardians, or the student's legal counsel may request an explanation of such records at any time prior to or at the hearing. The principal, the student, the student's parents or legal guardians, or the student's legal counsel may ask witnesses to testify at the hearing. Such testimony will be given under oath, and the hearing officer will administer the oath. All witnesses giving testimony at the hearing, including the student, will be subject to cross-examination. The student may testify in his/her defense but is not required to do so; no inference shall be drawn regarding a student's declining to testify. Any person providing oral or written testimony at the hearing shall be given the same immunity from liability as a person testifying in a court case. A single hearing may be conducted for more than one student if, in the opinion of the hearing officer, a single hearing is not likely to result in confusion or prejudice to the interests of any of the students involved. If confusion does result or any student's interests are substantially prejudiced by the group hearing, the hearing examiner shall order a separate hearing for each or any of the students.
 7. *Availability of Witnesses*: The hearing officer shall make reasonable efforts to assist in obtaining the attendance of any witnesses requested by the student, the student's parents/guardians, or the student's legal counsel.
 8. *Record*: The proceedings of the hearing shall be recorded at the expense of the school district.
 9. *Findings*: Within a reasonable time after the conclusion of the hearing, the hearing officer shall submit to the superintendent his or her written findings and recommendation as to disposition. This report shall explain, in terms of the needs of both the student and the school, the reasons for the hearing officer's recommendation. Such recommendation may range from no action through the entire field of counseling, long term suspension, expulsion, or mandatory reassignment.
 10. *Review by Superintendent*: The superintendent shall review the report of findings of the hearing officer and may, at his/her discretion, review the hearing record. Based upon his or her review, the superintendent shall determine the sanctions to be imposed; the superintendent may not impose a sanction more severe than that recommended by the hearing officer.
 11. *Notice of Determination*: Written notice of the findings and recommendations of the hearing officer and the determination of the superintendent shall be made by certified or registered mail or by personal delivery to the student and the student's parents or legal guardians. Upon receipt of such notice, the determination of the superintendent shall take immediate effect.
 12. *Appeal to the Board*: The student or the student's parents or legal guardians may, within seven school days following receipt of the superintendent's decision, submit to the superintendent a written request for a hearing before the Board of Education.

13. *Review by the Board of Education:* Upon receipt of the request for a review of the superintendent's decision, the Board of Education, or a Board committee consisting of no fewer than three members, shall, within ten school days, hold a hearing on the matter. Such a hearing shall be made on the case record except that the Board may admit new or additional evidence to avoid substantial threat of unfairness. The Board or committee thereof may deliberate privately upon the record and new evidence; such deliberation shall be held in the presence only of Board members in attendance at the appeal proceeding and may be held in the presence of legal counsel provided said counsel did not previously act to present the school's case before the hearing officer. If questions arise during such deliberation, the Board or committee thereof may reopen the hearing, subject to the right of all parties to be present. The Board or committee shall make a final disposition of the matter. The Board or committee thereof may alter the superintendent's disposition of the case if it finds that disposition to be too severe, but it may not impose a more severe penalty. The final decision of the Board or committee thereof shall be delivered to the student and the student's parents or legal guardians by personal delivery or by mailing the same by certified or registered mail.

R. Due Process Procedures for Qualifying Special Education Students

1. Special education students may be suspended for violation of student conduct rules to the same extent as other students, subject to the limitations and procedures imposed by federal and state laws and regulations.
2. A special education student may be suspended from school for 10 consecutive school days or less, under the same procedures as students without disabilities, including the provision of alternative education programs.
3. When a student has been or will be suspended for 10 days or more during the school year, the IEP manager and IEP team shall make a determination of whether a "change of placement" has occurred or will occur as a result of the suspension. The student's parents shall be notified of the suspension decision and be given the procedural safeguards notice. The notice will be given on or before the date the decision to suspend is made.
4. If it is determined that the suspension will not cause a change in placement the IEP team will convene to review or develop a functional behavioral assessment and review, modify, or develop a behavioral intervention plan. Additionally, the district will provide services to the student during the suspension to the extent necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the student's IEP.
5. If it is determined that the suspension will cause a change in placement, the IEP team will convene immediately (if possible) but no later than 10 days after the date on which the decision to take the suspension action is taken. The IEP team shall develop a functional behavioral assessment plan and develop, review and, if necessary, modify the behavioral intervention plan. The IEP team and other qualified personnel shall conduct a manifestation review, to determine whether the behavior of the student was a manifestation of the student's disability.
6. If it is determined that the behavior of the student was a manifestation of the student's disability, the suspension will not be continued or enforced. If it is determined that the behavior of the student was not a manifestation, the IEP team shall further determine what services must continue during the suspension.
7. The process outlined below for long-term suspensions or expulsions will be followed. The length of the long-term suspension or expulsion will be the same as it would be if the student were not in special education subject to any additional restrictions found in this section.
8. The IEP team manager will be immediately notified of the decision to recommend the long-term suspension or expulsion. The student's parents shall be notified of the suspension decision and be given the procedural safeguards notice. The notice will be given on or before the date the decision to suspend is made.
9. The IEP team shall convene immediately (if possible) but no later than 10 school days after the date on which the decision to take the expulsion or suspension action is taken. The IEP team will develop a functional behavioral assessment plan and develop, review and, if necessary, modify the behavioral intervention plan. The IEP team and other qualified personnel shall conduct a manifestation review to determine whether the behavior of the student was a manifestation of the student's disability.
10. If it is determined that the behavior of the student was a manifestation of the student's disability, the expulsion or suspension will not be continued or enforced. If it is determined that the behavior of the student was not a manifestation, the IEP team shall further determine what services must continue during the suspension or expulsion.
11. The district will provide services to the student during the expulsion or suspension to the extent necessary to enable the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals set out in the student's IEP.
12. Special education students may be placed in an alternative educational setting for 45 calendar days or less if the student either:
 - a. Carries or possesses a weapon (for this provision, "weapon" is defined as anything which may be used for, or is readily capable of, causing death or serious bodily injury, including a pocket knife with a blade of 2 ½ inches in length or more); or
 - b. Possesses, uses, sells, or solicits the sale of illegal drugs or controlled substances, to or at school (which includes school grounds and vehicles owned, leased, or contracted by the school, and vehicles being driven for a school purpose by a school employee or designee) or a school function.
13. The process for long-term suspensions or expulsions will be followed. The length of the placement in the alternative educational setting will be the same as it would be if the student were not in special education, subject to the 45 calendar day limit. The IEP team manager will be immediately notified of the decision to recommend the change in placement and when the long-term suspension or expulsion recommendation was made.
14. The student's parents shall be notified of the decision to change the student's placement and be given the procedural safeguards notice. The notice will be given on or before the date the decision to make the change in placement is made.
15. The IEP team will convene immediately, if possible, but no later than 10 school days after the date on which the decision to take the expulsion or long-term suspension action is taken. The IEP team shall develop a functional behavioral assessment plan and develop, review and, if necessary, modify the behavioral intervention plan. The IEP team and other qualified personnel shall conduct a manifestation review, to determine whether the behavior of the student was a manifestation of the student's disability.
16. If it is determined that the behavior of the student was a manifestation of the student's disability, the student will not be suspended for a period of more than 10 consecutive days (on a cumulative school year basis) or be expelled. If it is determined that the behavior of the student was not a manifestation, the IEP team shall further determine what services must continue during the long-term suspension or expulsion, and the alternative educational setting in which the student is to be placed.

17. The district will provide services to the student during the expulsion or suspension in an alternative educational setting. The alternative educational setting will be selected to enable the student to continue to progress in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the student's current IEP, that will enable the student to meet the goals set out in the IEP. The alternative setting will also include services and modifications to address the behavior and designed to prevent the behavior from recurring. The determination of the alternative educational setting is to be made by the IEP team.
18. A State Department of Education Hearing Officer may, through a special proceeding, place a special education student in an interim alternative educational setting for not more than 45 days if a student's current placement is substantially likely to result in injury to the student or others.
19. The Superintendent or designee is authorized to initiate such proceedings when deemed appropriate.
20. This regulation is applicable to students who are eligible for special education and to students who claim protection under regulations pertaining to the discipline of special education students if the District had knowledge that the student had a disability before the behavior causing disciplinary action occurred.
21. Having knowledge that a student has a disability holds true if:
 - a. the parent of the affected student has expressed concern about the need for special education services to District personnel in writing; OR
 - b. the behavior or performance of the affected student demonstrates the need for special education services; OR
 - c. the parent of the affected student has requested a special education evaluation; OR
 - d. District personnel have expressed concern about the behavior or performance of the affected student to the special education director or other District personnel in accord with the District's child find or special education referral system.
22. Such knowledge will not be deemed to exist if the District has conducted an evaluation and determined that no disability applies or if the District has determined that an evaluation is not necessary and has properly given the parents of the affected students notice of that determination.
23. If an evaluation request is received during the time a student is suspended or expelled, the evaluation will be conducted in an expedited manner.

S. Notification of Disciplinary Action Taken

1. A reasonable effort will be made to provide written notice of disciplinary action to the affected student and/or his/her parents.

T. Reporting of Criminal Acts

1. The principal and his/her designee shall notify appropriate law enforcement authorities of any student act which is known or suspected to be in violation of the Nebraska Criminal Code.
2. School employees shall not be civilly or criminally liable as a result of any such report made in good faith.

U. Incentive Activity for Good Behavior

1. At the end of the school year, middle school students who have demonstrated excellent behavior during the course of the year will be eligible for the end-of-the-year activity. In order to qualify for this fun-filled day, students must:
 - a. have no more than three detentions over the course of the year
 - b. have no Saturday School assignments for the year
 - c. have no suspensions/expulsions for the year
2. Additionally, any student who goes eight weeks without receiving a detention will receive a credit for one detention. Such credits will be taken into account when determining eligibility for end-of-year activities.

IV. Student Health and Safety

A. Accidents, Injuries, Illnesses, and Emergencies

1. Students who become ill during the school day will report to or be sent to the nurse. If it is deemed necessary to send the student home, the parent or person designated on the enrollment/emergency card will be contacted. If such contact cannot be established, the student will be kept in the nurse's office until school is dismissed. Parents are asked to advise the school of changes to enrollment/emergency card information.
2. If a student is injured at school and treatment required goes beyond that which school personnel can administer, the parent or designated person will be contacted and asked to come for the student.
3. If an injury or medical emergency arises which, in the opinion of school personnel, requires transportation for emergency care, the school will contact the EMS system in addition to notifying a parent or designated person. Parents can refuse such emergency transportation by signing a waiver for the rescue squad.

B. Medication

1. The school believes the responsibility for prescription, possession, and administration of students' medicine lies with the parent/guardian and physician. However, the school also recognizes that certain situations may arise in which it is necessary for medicines to be administered to a student during the regular school day. In such cases, the following procedures will be followed:
 - a. medicine is to be brought to school and picked up by the parent/guardian; no medicine will be sent home with a student; the medicine will be kept in a secure location at the school until a parent/guardian can pick it up; if a child will need medication at home also, parents are asked to have the pharmacist dispense the prescription in two bottles
 - b. the student's doctor must provide written orders detailing diagnosis, dosage, and times for administration of medicine
 - c. the parent or guardian must provide a written request for the school to administer medication and permission to do so
 - d. prescription medicine must be brought to school in a container with a pharmaceutical label which must state the student's name, prescription, dosage, and manner of administration
 - e. over-the-counter medication must be brought in the originally labeled container with the student's name on it
 - f. only the dosage prescribed will be administered in the manner prescribed
 - g. the person administering the medication will ascertain that the student actually ingests the prescribed medicine while in the presence of the person administering the medicine

- h. acetaminophen tablets, non-prescription throat lozenges, anti-bacterial sprays, band-aids, and so forth may be administered at the discretion of school officials unless written notice to the contrary is provided by parents
- i. if medicine is not picked up by the last day of school, it will be destroyed unless other arrangements are made by the parents

C. Self-Administration of Medication

1. Students who are able to self-administer specific medication (epi-pens, inhalers, etc.) may do so provided:
 - a. self-administration of medication is authorized in writing by a physician, with said authorization documenting the physician's evaluation of the safety, appropriateness, and approval of the self-administration plan
 - b. self-administration of medication is authorized in writing by a parent or guardian
 - c. medication to be self-administered is brought to school and maintained under the student's control in the original, properly labeled package, is not opened except when self-administering the medication, is not self-administered during instructional time or in the presence of other students unless medically necessary, and is not shown or exhibited to other students
 - d. the student and the student's physician or the physician's designee have developed a plan for reporting and supervision of self-administration
 - e. the principal, school nurse, and appropriate teachers are informed that the student is self-administering prescribed medication

D. Immunization

1. The school district shall comply with all statutory provisions regarding immunization of students to protect against communicable disease.
2. Middle school students must have the following immunizations:
 - a. 3 doses of Polio vaccine
 - b. 3 doses of DPT, DtaP, DT, or Td vaccine with one given on or after the child's fourth birthday
 - c. 2 doses MMR vaccine given on or after 12 months of age and separated by at least one month
 - d. 3 doses Hepatitis B vaccine
3. Students not in compliance with immunization requirements will not be permitted to attend classes. A student may be provisionally allowed class attendance privileges if he or she has begun the immunizations and continues to receive the immunizations as rapidly as is medically feasible.
4. Students claiming exemption from immunization for religious reasons shall deliver to the school a properly completed, sworn, and notarized affidavit to that effect.
5. Students claiming exemption from immunization for medical reasons shall deliver to the school a properly completed and signed statement from a licensed physician to that effect.
6. Students exempt from immunization for medical reasons or religious reasons shall be excluded from school during an outbreak of communicable diseases.

E. School Physical Examination Requirements

1. By state law, all students entering kindergarten and seventh grade are required to provide evidence of a physical examination performed by a qualified practitioner prior to the start of school. Students and/or parents objecting to this requirements may have the requirement waived by completing a document requesting such a waiver.
2. All students wishing to participate in extracurricular athletic activities are required to provide evidence of a physical examination performed by a qualified practitioner prior to beginning practice or competition for the activity in question. No waiver is allowed for this physical examination requirement.

F. Communicable Diseases

1. The school should be notified in the event a student contracts a communicable disease.
2. Students shall be excluded from school for the following reasons:
 - a. contagious diseases such as chicken pox, measles, mumps, pink eye, etc.
 - b. skin eruption or suspicious rashes
 - c. vomiting
 - d. abnormal temperature
 - e. head lice and/or nits (students with recurring head lice and/or nits will be excluded from school until all evidence of lice and nits is gone)
3. A child suffering from a skin disease or who has been absent from school because of an infection or contagious disease may be required to present a physician's statement prior to returning to school.

G. Sexually Transmitted Diseases

1. The following policy provisions ensure a safe and healthy school environment for all students in the event that education is provided for students known to have a chronic infectious disease (i.e. AIDS/ARC, CMV, hepatitis B, herpes simplex, etc.):
 - a. all children in Nebraska have a constitutional right to a free, suitable program of educational experience
 - b. as a general rule, a child with a chronic infectious disease will be allowed to attend school with the approval of the building administrator; a committee composed of the school nurse, a parent of the child without the disease, and a physician will make a recommendation to the building administrator; the child will attend school in a classroom setting and will be considered eligible for all rights, privileges, and services provided by law and existing school policy
 - c. the school nurse will function as the school liaison with the child's physician, the child's advocate in the school, and the coordinator of health services provided by other staff
 - d. the school will respect the right to privacy of the individual; therefore knowledge that a child has a chronic infectious disease will be confined to those persons with a direct need to know; those persons will be provided with appropriate information concerning such precautions as may be necessary and should be aware of any confidentiality requirements
 - e. based upon individual circumstances, special programming may be warranted and will be so determined by the building administrator; such special programs will be developed by a planning and placement team
 - f. under certain circumstances, a child with a chronic infectious disease might pose a risk of transmission to others; if any such circumstances exist, the school nurse in consultation with the child's physician must determine whether a risk of transmission exists; g. if it is determined that a risk exists, the student will be removed from the classroom

- g. a child with a chronic infectious disease may be temporarily removed from the classroom for the reasons stated in "f" above until an appropriate school program adjustment can be made, an appropriate alternative education program can be established, or the physician determines that the risk has abated and the child can return to the classroom
- h. removal from the classroom will not be construed as the only response to reduce risk of transmission; school personnel should be flexible in developing alternatives and should attempt to use the least restrictive means to accommodate the child's needs
- i. in any case of temporary removal of the student from the school setting, state regulations and school policy regarding homebound instruction will apply
- j. each removal of a child with a chronic infectious disease from normal school attendance will be reviewed by the school nurse, in consultation with the student's physician, at least once every month to determine whether condition(s) precipitating the removal has(have) changed
- k. a child with a chronic infectious disease may need to be removed from the classroom for his/her protection when other communicable diseases (i.e. measles, chicken pox, etc.) are occurring in the school population; this decision will be made by the child's physician and parent/guardian in consultation with the school nurse
- l. prior to being graduated from Ashland-Greenwood Middle School, each student will be provided with at least two hours of classroom teaching to address sexually transmitted diseases and the prevention thereof; this class preparation and curriculum shall be the responsibility of the school nurse in conjunction with the committee referred to in item "b" above

H. Asbestos Notice

1. The Institute of Environmental Awareness was asked by the Ashland-Greenwood Public Schools in 1988 to review and prepare an asbestos management plan identifying the presence of asbestos in district buildings. In 1991, the Institute reinspected the facilities, and in 1994, 1997, and 2000 the facilities were inspected by Venus Consulting of Orchard, NE. The federally certified inspectors and public health and engineering consultants for these firms worked in conjunction with school administrative personnel to identify asbestos containing building products. Asbestos is a mineral fiber associated with increased levels of disease when inhaled. The risk rating procedures used by these firms in commenting on asbestos were developed in conjunction with national experts in the areas of industrial medicine, toxicology, industrial hygiene, and engineering. After reviewing the characteristics of District buildings, IEA and/or Venus Consulting prepared a management plan for each building describing the asbestos plan and the intended response.
2. The district has continued to respond to the asbestos in the schools issue in a cautious and proactive manner. The district will continue ongoing asbestos operations and maintenance programs including periodic surveillance conducted every six months in all school buildings. Since implementation of the district's management plan on July 9, 1989, the following activities have been conducted:
 - a. At the elementary building, activities included abatement of thermal boiler and pipe insulation and of spray on ceiling finish.
 - b. At the middle school/high school building, activities included abatement of ceiling tile and asbestos joint compound and the abatement of some vinyl floor tile.
 - c. At the annex/bus barn building, activities included abatement of thermal pipe insulation.
3. During the past year, the district did not abate any asbestos containing building materials.
4. The district will continue ongoing efforts related to the management and control of asbestos in order to provide a safe and healthy environment for students, employees, and visitors. Anyone with questions is urged to contact the Asbestos Program Manager at 944-2128.

I. Emergency Drills

1. Fire drills are held throughout the year without advance notice. The sounding of an alarm accompanied by flashing strobe lights is the signal to vacate the building for a drill or because of an actual fire. All classrooms have designated exit routes posted; students are to follow those routes, walking in single file rapidly (but not running). Students and faculty will return to their respective classrooms upon receiving the all-clear signal.
2. Tornado drills will be held in conjunction with local and state drills for severe weather. Prior to the drill, teachers will review procedures with students.
3. Other emergency drills (i.e. for intruders, chemical spills, etc.) will be conducted on an as needed basis.

J. Insurance

1. Ashland-Greenwood Public Schools provides no health insurance coverage for students. It is the responsibility of the parents to provide adequate insurance to cover any medical expenses which may be incurred while the student is participating in curricular or extracurricular activities.
2. Accident insurance policies offered by a private vendor are made available to students at the start of each school year. School-day and 24-hour policies will include coverage for all extracurricular activities except football. A policy for football may be purchased, at an increased rate, by participants. Participation in any or all options is voluntary.
3. The district will also distribute materials provided by the state regarding subsidized health insurance options available to those qualifying on the basis of income.

K. Athletic Injuries

1. Any injury must be reported to the coach or sponsor immediately.

L. Statutorily Required Notice

1. The following notice is included in handbooks for students in grades 7-12 as required by Nebraska Revised Statute 71-6909 and is not a reflection of Ashland-Greenwood Public Schools' opinion or position on this or any other issue. Compliance with the law is the only purpose served by this notice.
2. If you are under 18 years of age and get pregnant, you will not be able to get an abortion without having a parent or legal guardian notified. You may appear before a judge and explain why you do not feel a parent or guardian should be notified. If you have any questions regarding the law, a copy can be obtained through the Clerk of the Legislature.
3. The school and/or its employees shall not be held responsible for action or inaction as a result of this statute or the distribution of this notice and shall be immune to any and all liability as a result of this notice.

V. Student Records

A. Notification of Records Policy

1. The Family Educational Rights and Privacy Act of 1974 (FERPA) requires, in Section 99.7, that Ashland-Greenwood Middle School annually notify parents and students of their FERPA rights. This handbook section constitutes that notification.
