Projected Receipts 2010-11

\$ 7,840,031

Difference Expenses over Receipts

(\$107,474)

2010-11 General Operating Fund Budget Assumptions

- Growth of Property Values in the School District by 4%
- Decrease in the Bond Fund Levy by 1.5 Cents
- Increase in the General Fund Levy by 1.5 Cents
- Only Priority #1 Capital Outlay Projects Addressed
- Instruction & Administrative Equipment limited to \$120,000
- Additional Total Certified Staffing 1 FTE Position
- Additional Non-certified Staff - No changes
- Shift of current staffing to Poverty and ELL Programs (No new staffing)
- Use of Title IIA Funds for Class Size Reduction
- New School Bus Purchased from Depreciation Fund
- Reduce of 2 contracts from Heartland School
- Decrease in Vehicle Gas costs based on lower more stable pricing

PROMPT:

Write a short 'press release' that would introduce you to the community and students if you are selected for this Physical Education & Head Boys Basketball position. When you are completed, please click save icon and you are done!

After spending most of the 2009-2010 school year as a long term sub and volunteer assistant basketball coach, Andrew Belsky will come aboard full time at AGHS as the 7-12 Physical Education teacher and Head Boy's Basketball coach. Belsky, a Dodge Nebraska native, graduated from Dodge High School and attended the University of Nebraska at Lincoln. While at the University of Nebraska Belsky was a student assistant for the Husker Football and Women's Basketball programs and earned a bachelor's degree in Health and Physical Education. Upon graduating from UNL, Belsky spent two years at Hyannis High School teaching health and PE along with multiple coaching duties including Head Boys Basketball and Head Track. After two years in Hyannis, Belsky accepted a position as Graduate Assistant Coach at Pittsburg State University in Pittsburg Kansas. At Pittsburg, Belsky helped coach the Women's Basketball team while earning his Masters Degree from the college of Health and Human Performance. Upon completion of his masters degree Belsky moved on to Cameron University in Lawton, Oklahoma where he assumed the roles as Assistant Women's Basketball coach as well as an instructor in the Health, Physical Education, and Recreation department at CU. At CU, Mr. Belsky had responsibility of the strength and conditioning program and recruiting. After a short stint at CU Belsky moved back to Nebraska and worked in the business field in Omaha until taking over at Ashland Greenwood last fall for Brad Jacobsen, who assumed the duties of Principal on October 5, 2009. Mr. Belsky is very excited about the opportunity ahead of him at AGHS and looks forward to being a part of this school and community.

Andrew Belsky

3121 N 120th Ct. #302 Omaha, NE 68164

"Your Complete Laboratory Furniture & Equipment Company"

PROPOSAL

March 24, 2010

TO: Mr. Brad Jacobsen, Principal
Ashland Greenwood Senior High School
1842 Furnas
Ashland, NE 68003

RE: Existing Classroom Remodel

Subject: Scope of Work & Pricing

Innovative Laboratory Systems, Inc., 105 South 14th Street, Ashland NE is pleased to be presenting this proposal for providing, delivering and installing the Kewaunee Scientific Corporation wood casework, 1" thick black epoxy countertops/sinks and fixtures most closely resembling the materials called out drawings cooperatively developed by ILS and Senior High School personnel. The materials to be supplied are depicted on drawings with a born on date of 02/04/10.

Price: \$36,635.00
Add for electrical/data raceway \$1,500.00

Credit for Deleting 12 Tables shown on Drawing Sheet A6 Elevation 10 \$6,900.00

1. Items which have been specifically excluded from this proposal include, but are not limited to the following:
 - a. Bonding—if bonding is required add 1 1/2% to the project proposal amounts
 - b. Electrical, plumbing or HVAC work required to make the materials provided by ILS operational
 - c. Hoisting of materials supplied by ILS to any level above grade.
2. TAXES ARE NOT INCLUDED Unless the order is accompanied by a specific tax exemption certificate, taxes as necessary, must be collected.
3. Prices may be considered firm for a period of 60 days with later acceptance subject to Innovative Laboratory Systems, Inc. approval.
4. Terms of sale are defined by the pricing portion of this document.

PROPOSAL

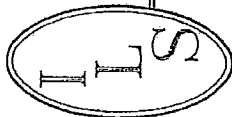

5. Payment shall be net 30 days.
6. Delivery can be made 90 days after receipt of an approved order.
7. Shop drawings, when required by the project, can be available 15 working days after receipt of a notice to proceed. A 10 per cent fee may be billed upon the return of the approved shop drawings.
8. All obligations of Innovative Laboratory Systems, Inc. under this proposal are contingent upon Innovative Laboratory Systems, Inc.'s receipt of all required submittals and the access to the areas where equipment is to be installed for field measurements prior to the above stated lead time. Should dimensions not be available, they must be guaranteed in writing. All work areas are to be prepared so as to be acceptable to Innovative Laboratory Systems, Inc. and its agent for their work. Innovative Laboratory Systems, Inc. will not be called upon to ship materials/equipment until sufficient areas are ready to insure continued work.
9. Innovative Laboratory Systems, Inc. will not accept a purchase order or contract containing penalties or liquidated damages.
10. Innovative Laboratory Systems, Inc. will be furnished temporary suitable storage space at no additional cost for materials/equipment shipped to the jobsite at the direction of the contractor/owner.
11. All orders are subject to timely credit approval by Innovative Laboratory Systems, Inc.
12. All items quoted are to be the standard sizes, configuration and construction details of the manufacturer(s) indicated unless explicitly stated otherwise in this proposal. When installation pricing is not included the general contractor shall be responsible for all field measurements and for reporting immediately to ILS the receipt of freight shortages or freight damages.

We trust this pricing information and scope proposal will meet your requirements. We look forward to potential participation on the project. Please give us a call if we can be of any further help. Thank you.

Sincerely,

Dean Curtis, Senior Project Estimator

Kemreath Drop-in Sinks

Kemreath Drop-in Sinks are formed in metal molds to provide a tapered one-piece design. They are made from a combination of maximum strength resins, upgraded for maximum properties with carefully selected curing resins and inert fillers to produce a thermosetting material.

After being removed from the molds, they are cured at high temperatures for several hours to complete the polymerization process. They are made from a combination of maximum strength resins, upgraded for maximum properties with carefully selected curing resins and inert fillers to produce a thermosetting material.

Drop-in Kemreath Sinks
