

**ASHLAND-GREENWOOD
HIGH SCHOOL**

LAPTOP HANDBOOK

2009-2010 SCHOOL YEAR

C. Using Your Laptop at School

Laptops are intended for use at school each day. In addition to teacher expectations for laptop use, school messages, announcements, calendars and schedules will be accessed using the laptop computer. Students must be responsible to bring their laptop to all classes, unless specifically advised not to do so by their teacher. Students are encouraged to take laptops home for educational use provided that parents have given permission for that use.

Laptops Left at School

Beginning in 2009-2010, AGHS will institute a 0 hour class period running from 8:05-8:10am. The purpose of 0 hour will be for students leaving laptops at school to collect those from assigned rooms for use during the school day. 0 hour class assignments for students will be identical to 8th period class assignments (or, in the case of students with a partial day schedule, identical to their last class period assignment). At the end of 8th period each day, students leaving laptops at school will store and plug in those laptops in a manner prescribed by classroom teachers. Students who do not arrive by 8:10am will not be allowed to exercise 0 hour checkout privileges by interrupting class or inconveniencing others.

Laptops Left at Home

If students leave their laptop at home, academic consequences similar to those applicable to forgotten or incomplete work will be enforced. Students will **not** be issued a loaner laptop for temporary use.

Laptop Undergoing Repair

Loaner laptops may be issued to students when they leave their laptops for repair at the Help Desk in room B5.

Laptop Battery Issues

Laptops must be brought to school each day in a fully charged condition; if left at school overnight, classroom outlets will be provided for overnight charging. Failure to act responsibly with regard to ensuring battery charge will result in academic consequences similar to those applicable to forgotten or incomplete work; students will not be issued a loaner laptop for temporary use. In cases where required school use of the laptop has caused batteries to become discharged during the school day, students may be able to connect their computers to a power outlet in class.

Laptops Left in Unsupervised Areas

Under no circumstances should laptops be left in unsupervised areas. Unsupervised areas include the school grounds and campus, the cafeteria, computer lab, concourse, locker rooms, library, unlocked classrooms, dressing rooms and hallways. Additionally, laptops left in an unlocked or "rigged" hallway or PE locker will be considered to have been left in an unsupervised area. Any computer left in these areas is in danger of being stolen. Unsupervised laptops will be confiscated by staff and taken to the Office. Disciplinary action may be taken for leaving your laptop in an unsupervised location. At the very least, doing without the laptop for part or all of one or more school days will be an inconvenience.

Laptops should be shut down overnight.

D. Managing Files, Saving Files, Printing

Students will be logging onto the AGHS network in order to access and save their work. Students will have their own user account and folders on the network with ample space to save

purposes including research, multimedia production, communication, and homework completion. Students are expected to follow appropriate rules for use, as outlined below. All policies established by the board of education and stated in this AUP will be enforced by teachers and administrators throughout the district.

Privilege Statement

The use of computers loaned or leased to students by AGHS is a privilege. Students who do not use computers appropriately as outlined in this AUP or as by directed by district personnel are subject to loss of computer use.

Conditions and Rules for Use

- Students must have laptops with them, or locked in their school locker. Laptops should never be left unattended.
- While transporting the laptop students must use the protective sleeve provided by the school.
- Students will use the computer for school related educational activities only. Students shall not access material that is obscene in nature or that promotes illegal activity. If a student accesses an inappropriate site he or she should immediately report the incident to a classroom teacher, administrator, or district technology personnel.
- Students are not to write on, use stickers on, or mark their laptop in any form. If any damage does occur immediately report damage to technology personnel.
- Students will be given server space to store academic files. Files saved to the server must be for academic purposes. Files found on the server not academic in nature will be deleted.
- The Ashland-Greenwood school will maintain a filtering program to prevent students from accessing inappropriate materials. Any attempt to circumvent the district's filter will result in possible disciplinary action and loss of computer privileges.
- Email and all other forms of electronic communication will be used in a responsible manner. Students who engage in harassment, obscene, derogatory, or vulgar communication will be subject to possible disciplinary action and loss of computer privileges.
- Students will recognize and follow established laws regarding copyrighted materials. This includes, but is not limited to, downloading music, images, videos, and written documents that are copyrighted. Viewing or listening to downloaded music, images, videos, and written documents will be under the direction and with the permission of school staff.
- Students will not allow others to access their computer system by sharing account log-in and password information.
- Students will not install or attempt to install software applications on school laptops.
- Personal flash drives, CDs, DVDs, other storage media devices will not be used with school laptops.

Internet Safety

- Students shall not post personal contact information on the internet with their school computer. This includes name, age, gender, home address, and telephone number.

Laptop Protection Fees for Students/Families

Students wishing to make use of laptops outside of the school building and regular school hours will be required to pay a laptop protection fee. That insurance plan will provide protection for loss due to theft, fire, flood, natural disasters, vandalism, and power surge due to lightning. The fee is \$30.00 for the 2009-2010 school year. Students qualifying for waivers under student fee policy provisions and for whom a waiver request is on file will be exempt from having to pay the annual premium.

Claims for Laptop Protection Fees Coverage

Students or parents must file a police or fire report and bring a copy of the report to the principal's office before a laptop lost due to theft or fire can be repaired or replaced. Fraudulent reporting of theft or accidental damage by fire will be turned over to the police for prosecution. A student making a false report will also be subject to disciplinary action as outlined in the Student/Parent Handbook and/or the VIP booklet. The District will work with the local law enforcement to combat fraud. Students must pay \$100 for replacement of a lost computer.

Intentional Damage or Damage Due to Willful Neglect or Loss

Students/Parents are responsible for full payment of intentional damage to laptops or damage to laptops that is due to willful neglect or loss regardless of warranties or laptop protection fees coverage.

STUDENT PLEDGE FOR LAPTOP USE

1. I will take good care of my laptop and know that I will be issued the same laptop each year.
2. I will never leave the laptop unattended.
3. I will never loan out my laptop to other individuals.
4. I will know where my laptop is at all times.
5. I will charge my laptop's battery daily.
6. I will keep food and beverages away from my laptop since they may cause damage to the computer.
7. I will not disassemble any part of my laptop or attempt any repairs.
8. I will protect my laptop by only carrying it while in the sleeve provided by the school.
9. I will use my laptop computer in ways that are appropriate and educational.
10. I will not place decorations (such as stickers, markers, etc.) on the District laptop.
11. I understand that my laptop is subject to inspection at any time without notice and remains the property of Ashland-Greenwood High School.
12. I will follow the policies outlined in the *Laptop Handbook* while at school, as well as outside the school day.
13. I will file a police report in case of theft, vandalism, and other acts covered by insurance.
14. I will be responsible for all damage or loss caused by neglect or abuse.
15. I agree to pay for the replacement of my power cords, battery, or laptop case in the event any of these items are lost or stolen.
16. I agree to return the District laptop and power cords in good working condition and to make the District laptop available for inspection by school personnel as requested.

Student Name: _____ (Please Print)

Student Signature: _____ Date: _____

PARENT ACKNOWLEDGEMENT

I have reviewed the Laptop Handbook with my child and acknowledge that I am familiar with usage guidelines and responsibilities. I have checked the appropriate box below indicating whether or not my child may bring his/her laptop home for educational use. I understand that checking "YES" will obligate me to pay the laptop protection fee described in this handbook.

- YES.** My child may bring his/her laptop home for educational use when necessary. On those occasions when he/she does not bring his/her laptop home, the 0 hour option described in the Laptop Handbook will be observed.
- NO.** My child may **NOT** bring his/her laptop home but will instead use the 0 hour option described in the Laptop Handbook
